GUIDE TO BUILDING A COURT

SPACE REQUIRED:

Minimum size 9 x 18m

Preferred size 10 x 20m

TYPE OF SURFACE:

Concrete OR Asphalt base

When building from scratch it is recommended to consult with a reputable court construction company

Find a Reputable Contractor [HERE](#)

For guidance with new club construction and development contact Lehan: info@bothacourts.co.za

NET DIMENSIONS:

Net width (Inside net pole width) 6.71m

Net pole 76 - 90cm width

Net height: Centre 87-92cm

At net pole 92-96cm

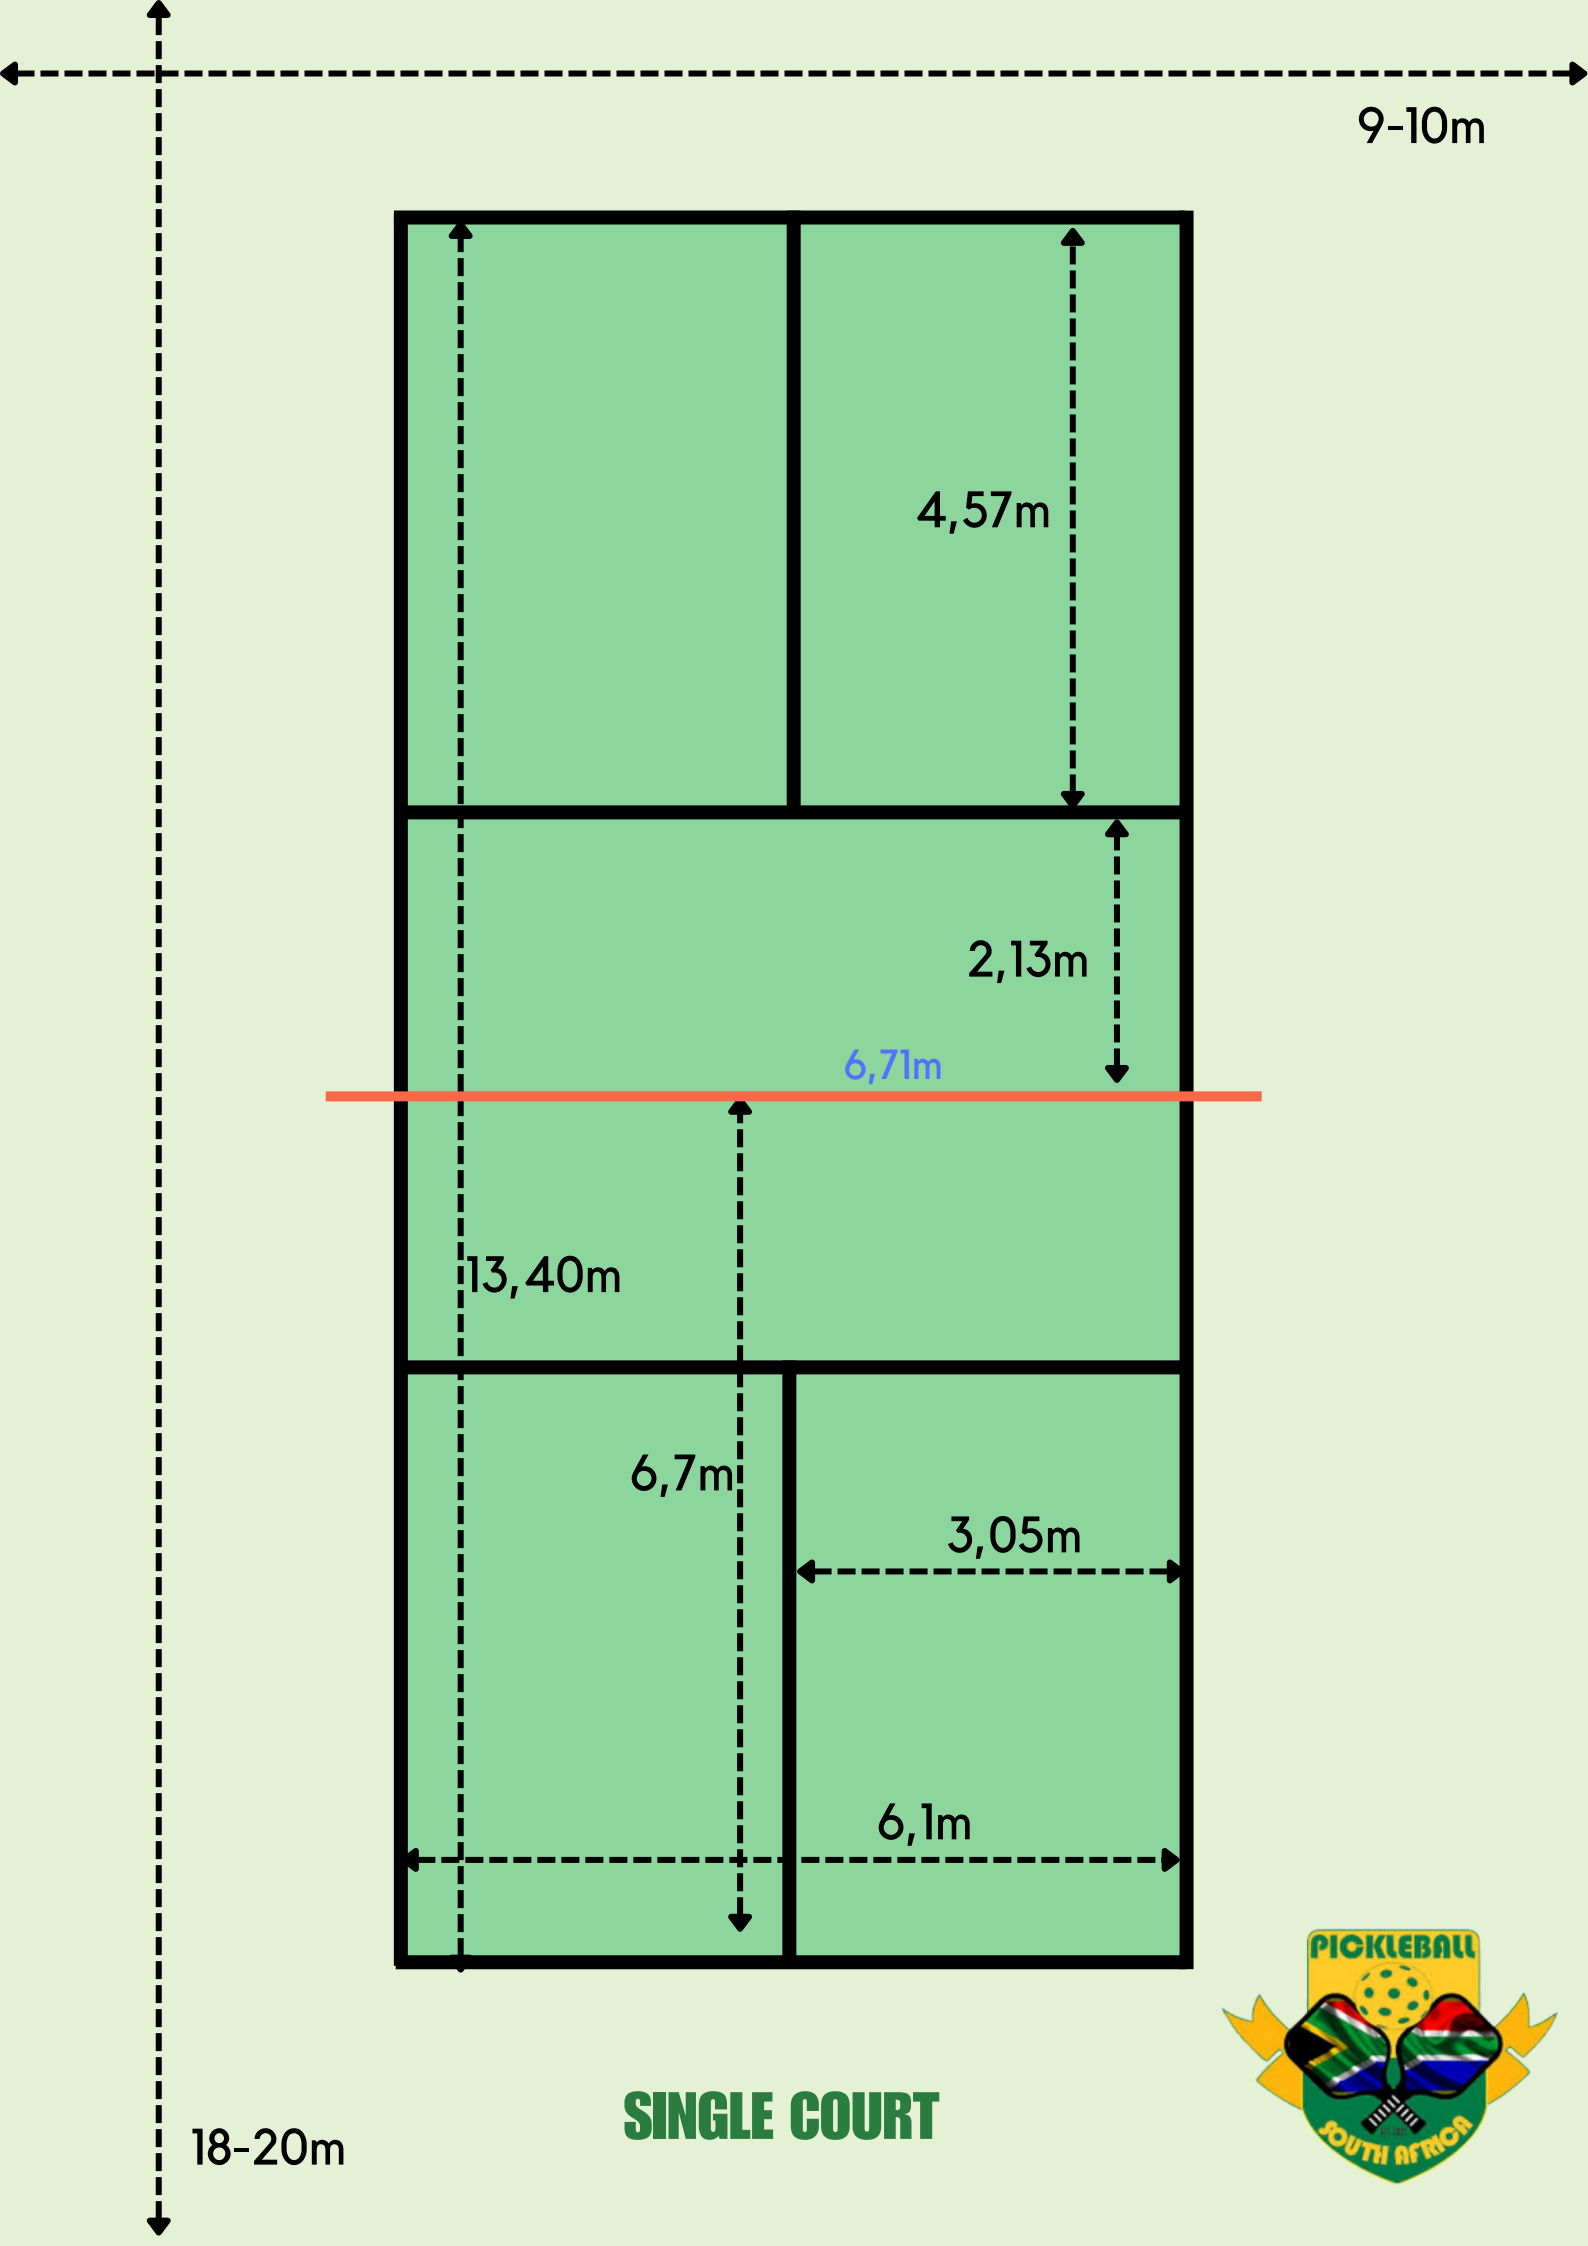

Tip: When one pickleball court is painted on a tennis court and the same net is used as for tennis simply loosen the tension on the net a bit and shorten the net hook in the middle to drop the net height.

FENCING:

Recommended Fence height behind baseline is minimum of 1.8m

Recommended Fence height between courts are 1m and higher

9-10m

4,57m

2,13m

6,71m

13,40m

6,7m

3,05m

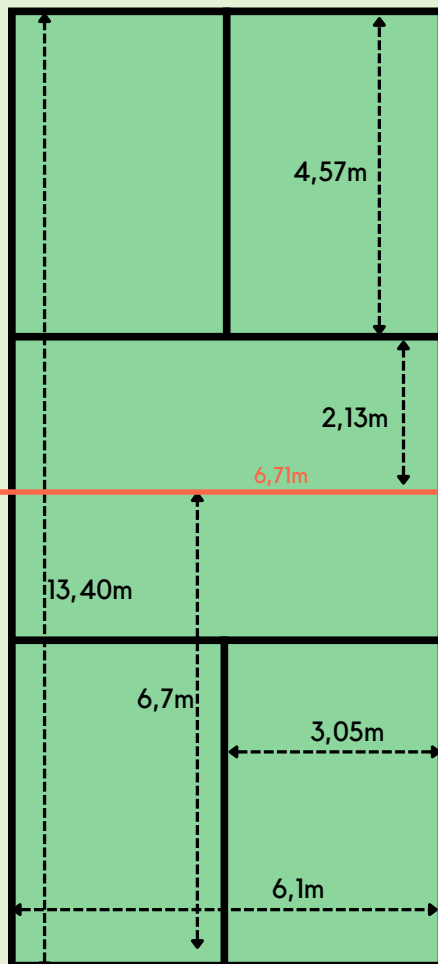

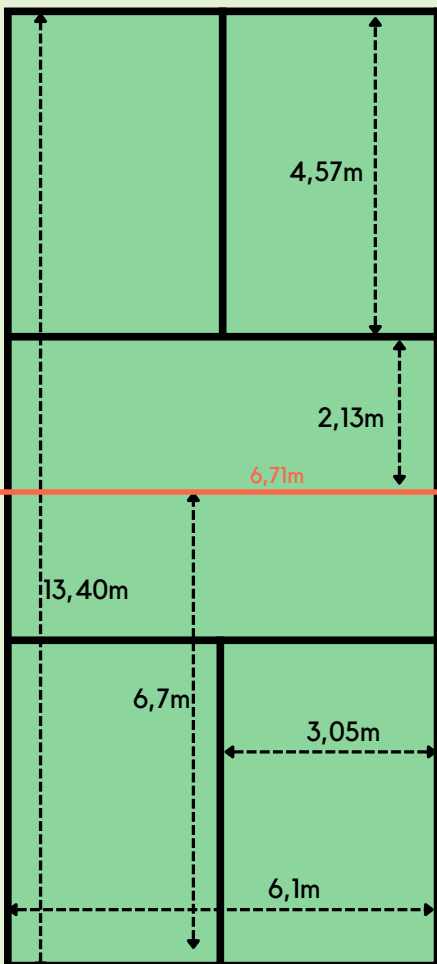

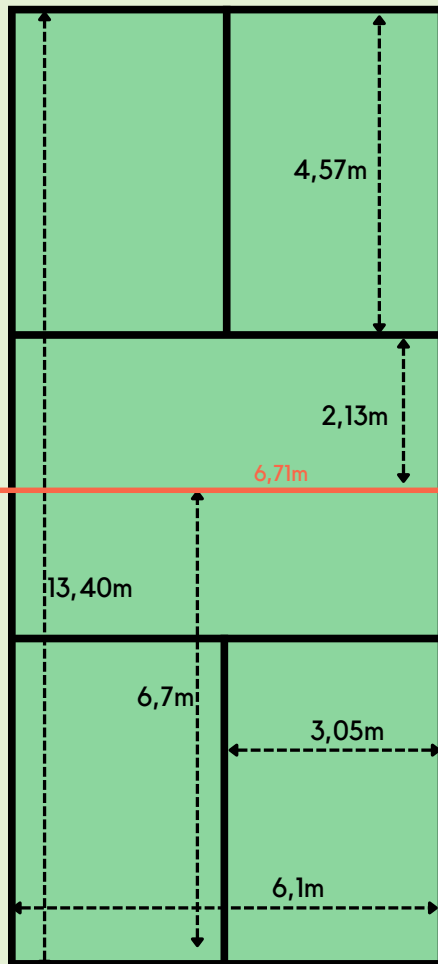

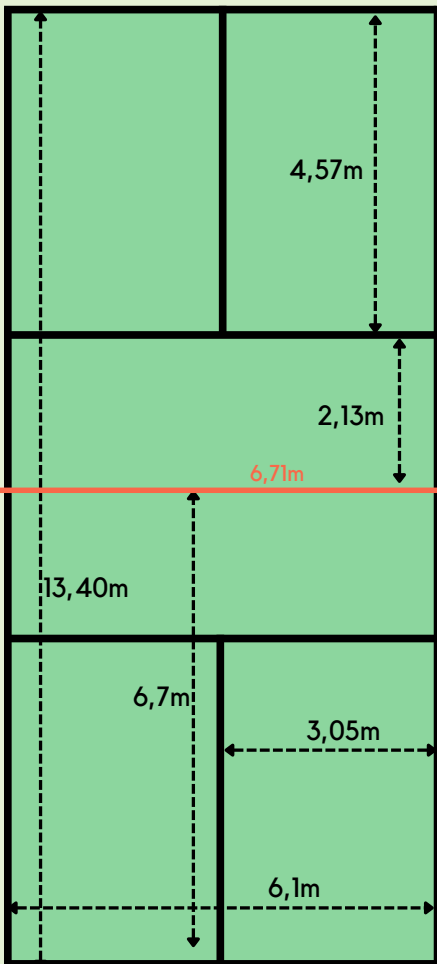

6,1m

18-20m

SINGLE COURT

18m

**WHEN
CONVERTING A
TENNIS COURT**

36m
